AAPSCM® CERTIFICATION

American Certified Supply Chain Digital Transformation Professional (AC-SCDTP)®

Build the Foundations of Digital Supply Chain Transformation.

About this certification

The AC-SCDTP® is a professional-level certification that equips supply chain professionals with the knowledge and practical skills to understand, apply, and support digital transformation initiatives across modern supply chain ecosystems.

Key Learning Outcomes

- Explain digital transformation in supply chains.
- Identify and apply digital supply chain technologies.
- Use data analytics to support decision-making.
- Understand automation and digital workflows.
- Improve supply chain visibility and collaboration.
- Recognize data governance and cybersecurity needs.
- Support implementation of digital initiatives.
- Explore emerging technologies for supply chain innovation.

Certification curriculum

- Introduction to Digital Supply Chains
- Supply Chain Data and Analytics
- Digital Supply Chain Technologies (Cloud, IoT, ERP)
- Process Automation & Digital Workflows
- Digital Collaboration & Supplier Integration
- Data Governance, Cybersecurity & Compliance
- Emerging Technologies (AI, Blockchain, RPA, etc.)
- Implementing and Managing Digital Supply Chain Initiatives
