AAPSCM® CERTIFICATION

Certified International Professional in Warehouse Inventory Management (CIPWIM)®

Foundational Professional Certification in Warehouse Operations, Inventory Control, and Global Inventory Management Systems

About this certification

The CIPWIM® certification equips warehouse, inventory, and supply chain professionals with practical knowledge and applied skills in warehouse operations, inventory control, materials handling, digital warehouse systems, order fulfillment, performance measurement, and safe, sustainable operations in global logistics environments.

Key Learning Outcomes

- Explain the role of warehousing in supply chains.
- Plan warehouse layouts and select storage systems.
- Apply inventory control and replenishment techniques.
- Use WMS, barcode, and RFID for inventory tracking.
- Manage receiving, picking, packing, and shipping.
- Interpret warehouse KPIs and operational reports.
- Support warehouse safety, compliance, and sustainability.
