AAPSCM® CERTIFICATION

Chartered AI Procurement Professional (CAIPP)®

Build the Foundations of AI-Enabled Procurement

About this certification

Artificial Intelligence (AI) is transforming procurement operations across industries by enabling organizations to automate routine processes, analyze large datasets, optimize supplier selection, and improve strategic sourcing decisions. Modern procurement teams increasingly rely on AI-driven analytics, predictive forecasting tools, intelligent supplier monitoring platforms, and automated procurement workflows to improve operational efficiency and strategic value creation.

Participants Will Learn How to:

- Understand the role of artificial intelligence in procurement transformation
- Apply AI-driven analytics to support procurement decision-making
- Identify opportunities for automation within procurement workflows
- Analyze supplier data using digital procurement platforms
- Support AI-enabled strategic sourcing initiatives
- Understand procurement data governance and AI ethics considerations
- Recognize emerging procurement technologies and innovation trends
